FOREWORD

In undertaking the publication of the 1922 California Auto Registrations we are fully aware of the tremendous difficulty of the task and of the many obstacles to be overcome in carrying it out. Nevertheless, we are attempting to complete the publication several months earlier than has been done heretofore, and to make such improvements in its compilation as to render it more serviceable to its many users.

It has been possible for us to accomplish this aim only through the active co-operation of the Motor Vehicle Department at Sacramento, who have helped in every way possible to make the publication a success. To Mr. Chas. J. Chenu, chief of the Division of Motor Vehicles, we are especially indebted for his personal interest and untiring efforts in keeping his office behind us at all times.

Plant located at
Third and Bryant Streets

The largest plant of its kind on the Pacific Coast

The word SERVICE—hackneyed as it is—means something to us. It means experienced men, provided with modern machinery, working through a modern type of organization, give careful attention to every job that comes into this five-story plant.

Printing, lithography, engraving, bookbinding, packing, shipping—this plant is thoroughly departmentalized. Our greatest source of pride is the satisfaction expressed by our many customers in America and in the Orient.

Our wide experience has forced us to develop a department for doing business by mail that meets every need of our distantly located customers. A letter from your firm will put you in immediate touch with the combined experience, knowledge, equipment and resources of the largest plant of its kind on the Pacific Coast.

From this chart, it may readily be seen that since this work will be in numerical arrangement, all of the automobiles registered at each office will appear on consecutive pages of the directory; all of the commercials on consecutive pages; etc.

Of the total registrations for each territory, approximately 95% will be handled by the Motor Vehicle Branch Office in that territory. By the use of the County Key Number the remaining 5% may readily be found.

Registration by mail handled at Sacramento only.

Therefore, although arranged numerically for the whole State, this work can excellently serve those whose chief need is for "local use."

As, for instance, in the San Francisco Territory:

There are 70,000 automobiles, Numbered from 543,001 to 613,000;
" " 7,000 commercials, " " 50,001 to 57,000;
" " 300 trailers, " " 19,401 to 19,700;
" " 3,000 motorcycles, " " 15,001 to 18,000;

Each one of these groups would, of course, appear respectively on consecutive pages; and these figures would represent easily 95% of the registrations in and around San Francisco. By making use of the County Key Number, the remaining 5% may be readily found.

This is just an example of what can be done with the six Territories.
